2. Monthly Probation Workload Reports

All OPCA-30 and OPCA-30A reports for Calendar Year 2016 have been submitted through the Integrated Justice Portal interface and this department will submit future Monthly Caseload Reports in a timely manner (within 30 days after the end of the month being reported) in the formats required by OPCA.

3. Quarterly SORA Address Verification Reports

All SORA Address Verification Reports for Calendar Year 2016 have been submitted through the Integrated Justice Portal interface and this department will submit future SORA Address Verification Reports in a timely manner (within 30 days after the end of the quarter being reported) in the formats required by OPCA.

4. Integrated Probation Registrant System (I-PRS)

The Integrated Probation Registrant System information for calendar year 2017 will continue to be maintained in as timely and accurate a manner as possible. Further, the proportion of active but closable criminal supervision cases will be brought to and maintained at less than 5% of the total active caseload on the I-PRS.

5. DNA Collections

The department will routinely check the “DNA Owed” report on the Integrated Justice Portal and timely collect DNA from eligible probationers so as to maintain a minimum collection rate of 90%.

6. Integrated Justice Portal

The department will ensure that all probation officers have access to the Integrated Justice Portal. Enter the number of sworn officers in the department here 30 and enter the number sworn officers with access to the Integrated Justice Portal here30.

7. Risk/Need Assessment

The department will use DCJS/OPCA-approved, fully validated Risk/Need Assessment instruments for juvenile and adult offender populations consistent with established statewide protocols and/or rule.

8. Automated Case Management System

The Department will maintain an automated case management system which supports probation operations to include, but not limited to pre-trial, intake, investigation, and supervision functions.

Part 2: 2016-2017 Application for State Aid

The Application for State Aid should include the following:

The Application for State Aid consists of four parts: All parts must be submitted to complete the Annual Plan package.

1. 2017 Department Position Summary Chart (in plan);
2. Department's adopted 2017 budget (*please attach*);
3. Department's final 2016 expenditures (*please attach*); and
4. Expenditure Summary document for 2016 (*please use form provided and attach*)

Note: If the fringe benefits amount for the year is not included in the documents provided, please also include a statement with fringe dollar amount for both the current year budget and the prior year expenditures.

2017 DEPARTMENT POSITION SUMMARY CHART

Section I of the chart is to summarize staffing information by position title. Titles that are not included under Probation Management Rule Appendix H-10 should be entered in Section II of the chart.

Section I. Probation Management Rule Appendix H-10

Part 3: Staffing Patterns

FULL TIME EQUIVALENT POSITIONS

The purpose of this chart is to summarize staffing information by position title and the cumulative proportion of all staff members' time allocated to a generic probation function **as of 12/31/2016**.

For example, one full-time probation officer who spends approximately half of his/her time doing adult supervision and the other half doing juvenile supervision would be counted as .5 of a full time position in Criminal Court – Supervision and .5 of a full time position in Family Court – Supervision. The totals for each box are the totals for each title performing that particular function. Please do not list by individual position. The total FTE's, bottom row in the last column box*, should equal filled positions on Part 2 Section 1 Summary Chart, which can be found on page 13.

Titles that are not included under Probation Management Rule Appendix H-10 should be entered in Section II of the chart.

Section I. Full Time Equivalent (FTE) Staff Persons per Appendix H-10

For Supervisory positions the time box is split for each primary function with “SF” = Time Spent Supervising Performance of the Function and “PF” = Time Spent Actually Performing the Function.

Part 4: Enhanced Services for Sex Offenders (ESSO)

Goal Statement:

OPCA's goal for ESSO is to provide enhanced probation supervision services to SORA Level 2 and 3 probationers in order to reduce offender recidivism and promote public safety.

Annual Plan Requirements for All Departments:

If application is being submitted for **continued** allocation of Enhanced Services for Sex Offenders (ESSO) funding in 2017-2018, now a part of the block grant, the following assurances are made:

- 1) The Department will ensure that all Level 2 or 3 registered sex offenders under probation supervision are subject, where applicable, to the mandatory sex offender condition(s) set forth in Penal Law §65.10(4)-(a) and (b), and the sex offender is subject to other specialized sex offender conditions which may include, but are not limited to, the internet restriction condition under Penal Law §65.10 (5-a);
- 2) The Department will ensure that all such sex offenders are assigned to the caseload of an experienced probation officer/ probation unit who either solely or primarily supervises sex offenders, or has a significant concentration of sex offenders on the caseload, and who has received specialized training on sex offender management;
- 3) The Department will perform enhanced field work (for ex. surveillance, collateral contacts, employment visits, use of electronic monitoring, global positioning systems, computer scanning, internet usage monitoring, and other enforcement initiatives) in supervising such sex offenders;
- 4) The Department will conduct at least one visit to a Level 2 or 3 sex offender's home each quarter during which, at a minimum, a plain view search for prohibited items and/or substances is completed;
- 5) The Department will ensure that all such sex offenders are assessed by a probation officer or treatment provider using a sex-offender specific assessment instrument approved by the Division;
- 6) The Department will ensure that all such sex offenders are referred to, participate in, or successfully complete Association for the Treatment of Sexual Abusers (ATSA)-compliant clinical evaluation and/or treatment;
- 7) The Department will maintain and implement a policy which provides for collaboration with other law enforcement and service agencies on: warrant execution sweeps, home visits, surveillance, searches, treatment planning, housing, and other activities related to general sex offender management;

8) The Department will maintain and implement a policy which provides for officers to independently or in concert with law enforcement execute warrants on Sex Offenders, including apprehending absconders who are found, pursue extradition where appropriate, and secure warrants and retake interstate sex offenders where required and/or necessitated; and

9) The Department will utilize polygraph examinations for the management of certain sex offenders consistent with the goals of community safety.

Please indicate the number of polygraphs performed on sex offenders under the supervision of your department during calendar year 2016 (***such exams may have been coordinated/conducted by a treatment provider, the probation department, or other source***).

47

If polygraphs were not conducted on sex offenders under the supervision of your department in 2016, please describe your department's timeline and remediation plan to ensure such in 2017?

Part 5: Juvenile Risk Intervention Services Coordination (JRISC)

Goal Statement:

OPCA's goal for JRISC is to measurably reduce the risk of recidivism among high risk youth involved with probation. The eligible population may include both PINS and JD youth and may be used as part of diversion services as well as with youth under probation supervision. By increasing probation's capacity to access interventions that have demonstrated in research to be effective with this population, probation will reduce the risks of future delinquency and crime, detention, placement, and incarceration.

Annual Plan Requirements:

For seven (7) J-RISC Counties only--If application is being submitted for **continued** allocation of Juvenile Risk Intervention Services (JRISC) funding in 2017-2018 through the block grant, please complete the following:

1. Project Plan for 2017-2018 (check one):

- probation staffing directly responsible to provide identified evidence-based program services, including case monitoring and supervision; OR
- probation staffing who serve as part of an interagency team in the provision of evidence-based program services, including case monitoring and supervision; OR
- subcontracting with an evidence-based service provider; OR
- a combination of two or more of the above.

2. Describe use of the Youth Assessment and Screening Instrument (YASI) screening, assessment, case planning, and reassessment protocols throughout all facets of juvenile probation services (intake, investigation, and supervision) to identify appropriate ***high risk PINS and JD youth*** for participation in JRISC.
- When a youth is referred to the department, either as a JD or PINS via Intake, Investigation or Supervision, a YASI-trained officer conducts a YASI pre-screen to determine the youth's risk level. Those youths who score as medium or high risk after completing the pre-screen are re-interviewed for the purpose of conducting a full YASI assessment. Should a youth score as high risk with low protective factors on three of the following five domains: Family/Environment, Community/Peers, Use of Free Time, School, or Skills, then he or she will be referred to J-RISC and if selected, the JISP officer will work with the youth and their family to create a case plan for each participant. The JISP officer works closely with the MST therapist and/or the FSP facilitator to help with engagement for the youth and the family. Bi-weekly case review meetings are held by the J-RISC team to discuss progress, obstacles, and solutions. The JISP officer conducts reassessments every 90 days and updates the case plan, providing feedback to the youth and their family regarding progress. YASI information is shared with the J-RISC partners. J-RISC youth are supervised in accordance with OPCA rules and regulations.

3. Identify the juvenile probation officer/s who will be assigned to the JRISC project and their level of training specific to this project. This probation officer/s must be trained in family intervention, cognitive behavioral techniques, youth supervision, and delinquency prevention and must work collaboratively with the identified evidence based intervention. Probation Officer Jennifer Drake. She has been a PO for 7 years and has completed all OPCA training requirements. She worked closely with the JISP officer for 5 years and has also completed: YASI training; has training in ART; and is trained as a Family Solutions Program facilitator. She has daily contact with the FSP and MST therapists and attends bi-weekly meetings with the therapists.

4. Summarize the quantitative and qualitative results achieved to date through JRISC using your county's quarterly reports from 2008 to the present. This should also include an analysis of the use of YASI Youth Score Summaries measuring progress over time to reduce identified risk factors and/or increased identified protective factors. For youths completing the J-RISC Program (FSP or MST), the Department is seeking qualitative improvements in decision-making among the youths as well as improved family relationships. Qualitative results are measured by the FSP and MST programs and considered as part of a successful discharge. Quantitative improvements were measured by comparing risk scores and protective factors of the YASI pre-treatment assessment to the YASI post treatment assessment for those youths successfully completing the program, with the goal being to decrease risk factors and increase protective factors.

Between 1/1/ 2009 and 12/31/16 the program opened 321 qualifying intakes. 201 (62.6%) of the youth that entered the program completed the evidence based intervention. 174 (86.5%) of the youth that completed the evidence based intervention (MST or FSP) showed a documented reduction in dynamic risk.

Objective 1

Appropriate high risk PINS and JD youth are referred to the JRISC program.

Task 1

Using YASI assessment results, probation departments refer appropriate high risk PINS and JD youth to the JRISC program

Performance Measure 1

Number of JRISC youth entering an evidence-based program (EBP) = 33

Objective 2

JRISC youth are retained in the evidence based program through the 25%, 50%, and 75% stages of the intervention.

Task 2

Probation departments will work collaboratively with the evidence based intervention provider to retain JRISC youth in the program.

Performance Measure 2

Number of JRISC youth retained in EBP – completion of 25%, 50%, and 75% as established by the EBP model = 28

Objective 3

JRISC youth achieve 100% completion of the evidence based intervention.

Task 3

Probation departments will work collaboratively with the evidence based intervention provider to help JRISC youth achieve 100% completion of the program.

Performance Measure 3

Number of JRISC youth successfully completing EBP = 21

Objective 4

JRISC youth will successfully complete the evidence based program with documented reduction in their identified dynamic risk scores.

Task 4

Using the YASI assessment tool, specifically the Reassessment and Youth Score Summary functions, Probation departments will work collaboratively with the evidence based intervention to achieve reductions in dynamic risk for JRISC youth.

Performance Measure 4

Number of JRISC youth successfully completing EBP with documented reduction in dynamic risk factor scores = 19
