

NCHD CONTRACTOR LISTING-SURFACE SEWAGE DISPOSAL SYSTEMS

Attached is a listing of contractors who install onsite sewage disposal systems and have done work in Niagara County. It is noted that this list is in alphabetical order, not in order of performance. However, it is noted that the listing takes into account Department performance standards. Those concerned that don't consistently meet these standards will be periodically removed from the list. Further note that there may be additional contractors in the area who are capable of performing excellent work that the Department is not aware of. These firms should be brought to the attention of this Department if they desire to be added to the list.
