

# Niagara County Department of Health

## Tobacco Sales Certification Training Session

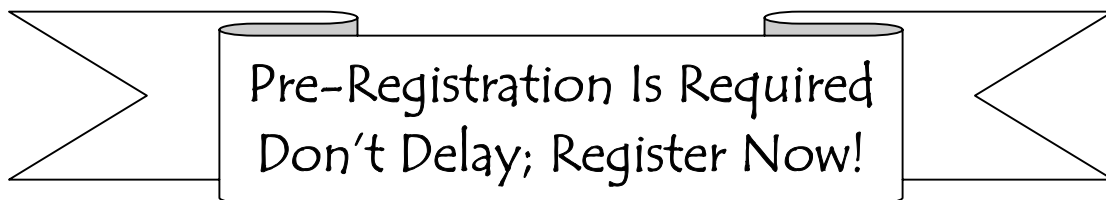

For Owners, Operators, Managers, Clerks, and Cashiers  
of all retail operations that are  
licensed by NYS DTF to sell tobacco products.

**Wednesday, June 14, 2006**  
**(morning)**

**Why take this class?** The Tobacco Law and the enforcement point system developed by the NYS Department of Health (NYS DOH) states that effective June 28, 2003 your establishment will be assessed the full 2-point penalty for selling tobacco to a minor unless a Certified Training Session is taken.

**What does this mean to you?** If you accumulate 3 points on your record in any 3-year period, the State will suspend your tobacco license and lottery license for 6 months. The State Liquor Authority is involved and you will be assessed fines that could reach thousands of dollars.

**How to avoid this.** This Certified Training Session will help reduce your risk of fines and help prevent youth access to tobacco products. Your point penalty is reduced to 1-point if your employee has been to a Certified Training Session.

Fee: \$5.00 per person for a 3-year certification.

SHAW BLDG. (Mount View Campus)  
Conference Room, First Floor  
5467 Upper Mountain Road, Lockport (park in the back)
