Out of County Fee	Vaccine Administration Fees
\$25.00	\$30 (based on insurance and/or income eligibility) <u>OR</u> \$25 (as per program regulations through the Vaccines for Children program)

- We offer the full range of recommended and routine pediatric vaccines free of charge for qualifying children 18 years of age and under through the Vaccines for Children (VFC) Program and MMR for college students of any age through the Vaccines for Adults (VFA) Program.
- Payment in full is due at the time of the appointment.
- We accept most insurances and insurance co-pay is due at the time of the appointment.
- If we are not a provider with your insurance plan, we will provide an itemized receipt specifying the vaccine(s) administered for you to submit to your insurance company for reimbursement.

Prices may vary due to cost and availability of vaccines.
